

REQUEST FOR ACTION (RFA) RESPONSE

GLAST LAT Project
Calorimeter Peer Review

17 – 18 March 2003

Action Item:	CAL – 002
Presentation Section:	Mechanical
Submitted by:	Jim Ryan

Request: Cal structure - Request coupons “with titanium inserts” also be fabricated during flight structure curing. Pull inserts to failure to verify strength/process.

Reason / Comment: All loads go into composite structure through titanium inserts. Plan was to only fabricate coupons without inserts.

Response: 18 April 2003

IN2P3 has agreed to incorporate titanium inserts into their co-cured sample coupons. Verification of the strength/process will also include pull testing of the inserts.
